2. Reasons for the revision:

In the forecast of consolidated result for the first-half-period of the fiscal year ending December 31, 2015, net sales are expected to remain in line with the previous forecast. Operating income, ordinary income and net income attributable to owners of parent are expected to exceed the previous forecasts largely due to improved product mix, cost efficiencies aimed at improvement of profitability (except for the marketing cost) and the deferment of a certain part of expenses to the second-half period of the current fiscal year.
