

Changes among the Corporate Executive Officers and Executive Officers

Shiseido Company, Limited (“Shiseido”) has announced that it will implement changes among the Corporate Executive Officers and Executive Officers, effective January 1, 2025.

Shiseido is working toward completing business transformation focused on the areas of growth strategies and structural reforms, with the goals of achieving sustainable profitable growth and building a resilient business structure. The new Executive Officer structure will lead key strategies in those areas. Additionally, to foster a flat organizational culture in which active discussions and decision-making occur without regard for hierarchical differences among the Corporate Executive Officers, who are core members of management, the management structure will not have an executive vice president or senior executive officer.
