

## JSID's Fellowship Shiseido Research Grant 2021 Winners

The award ceremony will be held at the 46th JSID Annual Meeting (Friday, 3rd December 2021, 12:55~13:30, Online Room A).

Their research presentation will be held at the 47th JSID Annual Meeting in 2022.

Name : Daisuke Nanba, Ph.D.
Affiliation : Division of Aging and Regeneration, Institute of Medical Science, The University of Tokyo
Research subject : Understanding the mechanism of age-associated decline of skin regenerative capacity through epidermal stem cells
Biography: Education:
1996 (Mar.) Faculty of Science, Osaka University (B.Sc.)
2001 (Mar.) Graduate School of Science, Osaka University (Ph.D.)
Professional Experience:
2001 (Apr.) Postdoctoral Fellow, Osaka University
2002 (Apr.) Postdoctoral Fellow, Ehime University
2005 (Nov.) JSPS Postdoctoral Fellow for Research Abroad
2007 (Nov.) Postdoctoral Fellow, Ecole Polytechnique Fédérale de Lausanne
2009 (Aug.) Senior Research Fellow, Ehime University
2014 (Apr.) Associate Professor, Ehime University
2015 (Apr.) Associate Professor, Tokyo Medical and Dental University
2021 (Nov.) Associate Professor, The University of Tokyo

## Comments :

It is a great honor to receive JSID's Fellowship Shiseido Research Grant 2021, and I appreciate the selection committee members in JSID and Shiseido. This grant is very valuable for me since I have worked on skin biology field for many years with biologists, dermatologists, and industrial researchers. In this project, I try to understand the mechanism of age-associated decline of skin regenerative capacity by focusing the age-associated alteration of epidermal stem cell dynamics.

## JSID's Fellowship Shiseido Research Grant 2021 Winners

Name : Sho Hiroyasu, M.D., Ph.D.
Affiliation : Department of Dermatology, Osaka City University Graduate School of Medicine, Osaka, Japan.
Research subject :
Protease functions in itch associated with pemphigoid diseases
Biography: Education:
2007 (Mar.) M.D., Osaka City University Graduate School of Medicine, Osaka, Japan
2013 (Mar.) Ph.D., Osaka City University Graduate School of Medicine, Osaka, Japan
Work and Training Experiences:
2007(Apr.)-2008(Mar.) Junior Resident, Osaka Socio-Medical Center Hospital
2008(Apr.)-2009(Mar.) Junior Resident, Osaka City University Hospital
2013(Feb.)-2013(Aug.) Postdoc Fellow, Department of Cell and Molecular Biology, Feinberg School of Medicine, Northwestern University, Chicago, IL, USA
2013(Sep.)-2017(Sep.) Postdoc Fellow, School of Molecular Biosciences, Washington State University, Pullman, WA, USA
2017(Oct.)-2020(Aug.) Postdoc Fellow, Department of Pathology and Laboratory Medicine, University of British Columbia, Vancouver, BC, Canada
2020(Oct.)- Senior Resident, Department of Dermatology, Osaka City University Hospital

## Comments :

I am honored and grateful to have been chosen as a recipient of JSID's Fellowship Shiseido Research Grant. During my PhD and postdoc trainings, I have been elucidating pathological functions of proteases and cell attachment proteins in skin. In the current research, I extend these studies by focusing on PAR-2 activation by proteases to trigger itch in pemphigoid diseases. I sincerely appreciate the committee members and Shiseido. With the support of this grant, we will pursue our research to contribute to the dermatology field in a way that benefits human health.
